Statement from the Heart

Depending what you read, 70-90% of Australians agree that further action is required around this document.

Morialta UC has already invited local churches into discussion about the Uluru Statement. While we have not received many replies it is felt that we should explore our response further. At least two groups within Morialta UC have studied the Uluru Statement and now members of Morialta UC are invited to express their interest in meeting together to explore further actions that might be taken. If you are interested, or have questions please be in touch with Bruce Ind
